The Brotherwood® TIGON Toyota Proace Verso conversion provides the space and versatility a family needs. With a tall, wide, and inclusive central wheelchair location between two rear carer passenger seats, the Brotherwood® TIGON can safely transport the heaviest of powered wheelchairs. The huge payload capacity of the TIGON is complimented by the STORQ rear restraint system, which has been robustly engineered to restrain large wheelchairs up to 200kg.

The central wheelchair location also ensures a smooth, quiet, comfortable ride for the wheelchair user, integrating harmoniously with the family. For an extra touch of refinement, optional VB-AirSuspension ensures unbeatable ride quality and even easier loading with remote-controlled height adjustment, and auto-levelling for a consistent ride at any payload weight.
